Death is different than Rory imagined. She doesn't remember the moments leading up to crashing into the alien mother ship. All she knows is that a huge, beautiful man now treats her as if she's the most precious thing in the world. And the virus? It seems to be gone. She could cry with joy. FarSeer can't believe how the beautiful, human female makes him feel. Every time he looks at her, he envies the male who will soon make her his bride. More than that, he wonders how she'll feel when she learns that she isn't in the afterlife, but has been kidnapped. But even though Rory is aware of nothing outside of the quiet medbay, soon she'll discover that half the kidnapped women are destined for mates who will worship them. And the other half... well, they might find themselves wishing for death. What future is Rory destined for? And how long will FarSeer be able to keep her safe? **** "A Human Patient" is Part Two of a 5-part serialized novel. **** Check out the entire series: Book 1- A Human Sacrifice Book 2- A Human Patient Book 3- A Human Lover Book 4- A Human Fighter Book 5- A Human Bride
