Jake, alpha of his territory and a werewolf without peer, does not expect the meek little wolf he rescues off the side of the road to be his mate. The boy is newly turned, inexperienced, and it will be months before he and his wolf are integrated to the point where the mating instinct will kick in... Jake's wolf has no intention of waiting. (This is part three of a five part serial. Updates will be released every other Friday, with the completed serial released two weeks after the last installment for \$4.99) *** “Are you still hungry?” Jake didn’t think it would be possible for his little wolf to stuff himself further, but you never knew. “No, I’m good.” Jason had that look from the garden, like he wanted to say something but wasn’t quite sure how. “Yes?” Jake prompted. “What kind of relationship do you want?” Stopping his cleaning he sat down, determined to put all his feelings on the table. “I want to be your lover.” Jason visibly swallowed, looking somewhat like a deer caught in the headlights. Then he pulled himself together.

“And if I don’t want that?” It was obvious that Jason had fought his wolf in order to get the question past his lips.

Knowing that his reply would be crucial he answered somewhat truthfully. “Then I’ll be your friend until you

do.” Friends could sleep in the same bed and spend every waking moment together, right?
