When two fairy tales meet: When a savvy forester searches for his missing sister, he discovers a handsome prince who represents more danger to him than a manipulative witch.

Hansel Lorain has been close to his sister Gretel ever since escaping a witch when they were children. When Gretel begins disappearing for hours at a time, he pressures her into telling him where she's going and why. To Hansel's surprise, Gretel is visiting a woman trapped in a tower. He leaves his sister to her friendship, but when she doesn't come home one evening, he fears he made the wrong decision. After all, who had trapped the woman Gretel had befriended in the first place? Heading to the tower to find his sister, Hansel instead runs across Jory Marable—and the handsome man's blade. After a scuffle, Hansel is forced to confide in Jory, and in return, he learns that Jory is after a witch. Fearing for his sister's well-being, he agrees to team up with Jory. When Hansel discovers the attraction he feels for Jory is mutual, he has a decision to make. Can he enjoy a short partnership with benefits, keep his heart intact, and find his missing sister?
