637. That's the number of children that have been taken in the last thirty years. All taken by one person. He never leaves any evidence. He never leaves witnesses. He leaves only a name: Mr Panomie.

And Panomie is far from human. Eddie is hired to solve the case and bring about an end to Panomie's machinations. He delves into a world, in which magical creatures are in charge. But Eddie has problems of his own. Rachel is in prison but her curse is fighting to take control of Eddie's mind. And it's getting stronger. Each time Eddie gives in to the dark urges the curse gains more ground and he becomes more monstrous.

With the darkness inside him rapidly growing he has to figure out a way to cure himself before he becomes worse than Rachel ever was.

But it's getting harder to tell the difference between what's him and what's the darkness. Hit buy and get your copy of Dark Warlock now.
