Laurel Bishop got more than she expected at her annual appointment with Dr. Stewart. Because she hasn't had an exam in three years, the good doctor felt it was necessary to examine Laurel extensively. What she did not expect was the multiple orgasms she received during his unconventional testing. When he informed her that she would need regular appointments to make sure she remained in good health, Laurel was only too happy to become the doctor's new patient. Please note that this is a 6,000 word short story intended for mature audiences only. All characters in the story are over the age of 18. Contains graphic language, sexual content, medical play, sex, forced orgasms, and anal sex.

Excerpt: "Please take off your clothes and lie on the table with your feet in the stirrups." "Do I get a gown to change into," Laurel asked as she started to remove her clothes. It's not that she really needed one, but for the sake of modesty, she felt she wanted one. "No, Dr. Stewart will need you to assume multiple positions and a gown will only get in his way." Oh, Laurel thought as she sat on the exam table completely nude. She placed her feet in the stirrups and scooted down the table to where she knew they wanted her.
