Ginger is summoned home by her brother in law.

Her sister Bonnie is not well, and 3 of their children are dead. Who killed these precious baby girls? Was it the concerned husband..the disturbed son, Danny..the children's mother, Bonnie..

the farmhand, Carl..or someone else? And WHY? For those of you not familiar with Ruby Jean Jensen, she is a horror writer, and a good one. The characters are well developed and the story is fairly simple but draws you in. This is an author I highly recommend for you to try!
