I'M SUPPOSED TO PROTECT HER, BUT I'M ABOUT TO CORRUPT HER. She was pure until she met me. But her innocence was no match for the darkness I carry within. Still, there's good somewhere deep inside. I'm going to take her, break her, make her mine... but I'll keep her safe until the day I die. I've done bad things.

Bloody things. Things no man should have to do. Now, I want to put that life behind me. The problem is, the underworld has a way of dragging a man back down into its depths. But if I can't make it out, I've got to make sure that she does. When our bodies burn together – hot, sweaty, and delicious – nothing else matters. She's the only thing in my life worth saving. And even that might be impossible. At first, I tried to be her protector. But by the time all this is over, I might be the cause of her downfall.
