Families with members on the Autism Spectrum Disorder (ASD) have a huge range of issues and challenges. There are certainly books out in the world sharing clinical studies, groups to join, and strategies and coping guidelines, but there aren't a lot of personal stories.

This is just one story of a mom trying to help her son with Asperger's Syndrome. About the Author Jeanne graduated many moons ago with an MFA in Acting and Directing. She landed on the west coast and eventually had two beautiful sons. While some earlier ambitions flew away, she's spent the last decade collaborating and writing plays, songs, skits and jokes. This is her first foray into book-land.
