Cute but chunky weather girl Ursula Cain is certain her super sexy neighbor Jack Santos is the biggest flirt in the universe. In the six months he's lived next door to her, he's asked her out at least once a week. Too bad Jack has a revolving bedroom door and not one of the ladies using it is over a size ten. When Ursula has a bad run of predicting the weather, Jack goads her into a bet. If rain ruins his Saturday soccer game, she has to make it up to him Sunday -- in bed.

***** This 9,400+ word short story is for readers who like explicit erotica with a happy-for-now ending featuring a plus-sized beauty and her erotic bet with the world's biggest flirt and sexiest pain in the ass. *****
