One planet rich in fuel. Two psychic talents are required to mine it. Three species seeking control. Taymar is telekinetic, violent and deadly. She is also the first of her kind to be telepathic as well, making her an intolerable threat to the ruling species of her home planet. They want to control her. To tame her. She just wants to be free. A cruel twist of fate has Nevvis tasked with managing Taymar when he is supposed to be managing a planet on the verge of war. But, she is hard to ignore and impossible to forget. When the Shreet invaders attack, Taymar jumps at the chance to escape.

Nevvis would love nothing better than to let her go, but he can't. If he is to save their home from the Shreet, he must twist her into a weapon and somehow convince her to help save a planet that has only ever tried to destroy her.
