This box set includes all four books from The Fate Series: Hanging Pawns, Adjournment, Sacrifice, and End Game. Plus a bonus chapter. We all have choices in life... paths to take... roads to follow.... It's on those journeys that Fate finds us and takes us where we need to be. Without a second glance, we can be taken away from everything we knew, the "people we love" and given a new life. One that can change us... save us... What would you do if Fate dropped you at a crossroads? Would you go back? Or would you run like hell the other way? One night is all it took to change Sidney Chandler and Simon McAllister's future and set them both on separate paths. But when Fate decides to reunite them almost a decade later will Simon be able to win back the woman he loves? And will Sidney be able to get past what happened between them and move forward?
