Shannon is thrilled when her mom becomes pregnant.

After years of hoping and praying, Shannon will be a big sister. They will be a normal, happy family. Shannon likes being normal. But when her baby brother is born, things do not go according to plan. God does not seem to be following the rules. And Shannon does something that is so out of character, not even she can explain it. Sent away to Camp Outlook, Shannon has several mysterious experiences, crushes on the student minister, and starts to re-consider how important being “normal” really is.
