In order to help the Texas Cattleman's Club in their sting operation, Alexander Kent needed a make-believe wife. The notorious playboy was reluctant to let any woman play Mrs. Kent - even temporarily. This made high school drama coach Stephanie Firth the perfect choice since the plain Jane was only putting up with him for the sake of the assignment. Plain Jane or not, Alex soon found himself drawn to her quiet beauty, and once he slipped a ring on her finger, he wanted to prove to his reluctant wife just how charming and seductive he could be. But once Cinderella shed her inhibitions, would Alex want to make their fantasy...into a reality?
