Alice Alexis Queensmeadow 12 rates three things most important: Mother, who wouldn't miss her; magic and color, which seem to elude her; and Father, who always loved her. Father disappeared from Ferenwood with only a ruler, almost three years ago. But she will have to travel through the mythical, dangerous land of Furthermore, where down can be up, paper is alive, and left can be both right and very, very wrong. Her only companion is Oliver whose own magic is based in lies and deceit.

Alice must first find herself—and hold fast to the magic of love in the face of loss.
