The romantic escapades of Casanova, the man who would risk everything for love, are detailed and remembered in this new translation of his memoirs. With the same flair and intensity with which he lived, Casanova describes his adventures as a spy, his gambling escapades, and his love affairs, which won him the reputation as Europe's greatest lover. Testimonies from outside sources and insights into the customs and history of Casanova's Europe complete this lively look into the life of one of the most notorious and adventurous figures of the Renaissance.
